DETAILED ACTION

1. Claims 1, 6, 8, 11-14 are amended in the amendment filed on 11/02/2007.

Claims 1-14 are pending in this application.

Response to Arguments

2. Applicant's arguments with respect to claims 1, 6, 8 and 11-14 have been considered but are moot in view of the new ground(s) of rejection.

Claim Objections

3. Claims 2 and 8 are objected to because of the following informalities: claim 2 recites "the overall appearance frequency" in line 5 and claim 8 recites "the overall appearance frequency in line 7. Appropriate correction is required.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 1-14 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 1 recites "...configures only a part of the music data by each piece of the stored music data" which is not clear how the one ordinary skill in the art able to configure the music data. For the purpose of examination, the "...configures only a part of the music data by each piece of the stored

music data" being interpreted as "configures only a part to the music data by each piece of the stored music data by using morphological analysis performing the thesaurus analysis of the music data based on the lyrics data to generate an image word and outputting the extracted image word list" according to applicant specification in paragraphs 59, 64 and 66. Claims 6, 8 and 11-14 recites the same limitations as claim 1; therefore, claims 6 and 11-14 are allowed under the same reason as to claim 1.

5. Claims 1-14 are rejected under 35 U.S.C. 112, second paragraph, as being incomplete for omitting essential elements, such omission amounting to a gap between the elements. See MPEP § 2172.01. The omitted elements are: analyzing the lyrics data based on the stored music data using morphological analysis which performs the thesaurus analysis to extract word image and output the image word" is critical step which in turn to determine which of the music data needs to be reproduced by both the detection and the selection steps.

Allowable Subject Matter

6. Claims 1-14 will be allowed when the applicants overcome the 112 rejection as set forth in this Office Action.

The following is an examiner's statement of reasons for allowance:

As to claims 1, 6 and 11-14, the examiner agrees with application argument on argument filed on 11/02/2007 on pages 14 and 15. Claims 2-5, 7-10 depended on Claims 1 and 6 are allowed under the same reason as to claim 1 and 6.
